L'édition de janvier 2014 du "The Journal of Medical Ethics" est consacrée entièrement à la thématique « The human body as property ». Les articles n'abordent pas tous la transplantation directement mais comme ils traitent de la propriété et de la régulation de l'usage des tissus et des organes, nous croyons que toute cette édition est importante en éthique de la transplantation. Le lien suivant vous enverra donc directement à la table des matières de cette édition. [\(lien\)](#)
